

Isakson / Title I / Amendment #2

Maintain strong state and local reporting of performance of schools

Purpose: Ensure that state and local reporting of school performance remains strong while freeing them from over burdensome reporting requirements

What It Does

- Strikes the 80+ new reporting requirements from Senator Harkin's bill
- Continues the flow of useful and efficient data from schools to parents
- Continues the use of disaggregated reporting from No Child Left Behind
- Includes the per pupil expenditures of Federal, State, and local funds for each LEA in the state

Strengthening America's Schools Act

- 80+ additional reporting requirements on top of what State and local educational agencies already report
